Statement of Parish Priest's responsibilities

Developments in charity legislation recommend the Parish Priest to prepare financial statements each financial year, which give a true and fair view of the state of affairs of the parish and of the results of the parish for that period. In preparing those financial statements the Parish Priest is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The Parish Priest is responsible for ensuring that proper accounting records are kept which disclose with reasonable accuracy at any time the financial position of the parish and enable him to ensure that the financial statements comply with best practice. The Parish Priest is also responsible for safeguarding the assets of the parish and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the financial statements

1 Accounting policies

The financial statements are prepared under the historical cost basis of accounting as modified by the revaluation of fixed assets and in accordance with applicable accounting standards.

Tangible fixed assets

Fixed assets are stated at their estimated market value at 1 April 1998. Additions thereafter are stated at cost price. Depreciation is calculated so as to write off the cost of tangible fixed assets, less their estimated residual values, over the expected useful economic lives of the assets as follows: -

Church buildings	1% straight line
Parochial houses	1% straight line
Schools	1% straight line
Parochial hall and other properties	1% straight line
Church contents	2% straight line
Parochial house contents	4% straight line
Parochial hall and other contents	4% straight line

Capital grants

Grants in respect of capital expenditure are credited to a deferred income account and are released to the statement of financial activities over the expected useful lives of the relevant assets by equal annual instalments.

Fund accounting

The parish has various types of funds for which it is responsible, and which require separate disclosure. These are as follows:

Endowment funds

Funds given to the parish where the income may be used for specific or general purposes but the capital must be retained, generally indefinitely.

Restricted funds

Funds which are earmarked by the donor for specific purposes, but still within the objects of the parish. Restricted funds may be restricted income funds, expendable at the discretion of the Parish Priest in furtherance of some particular aspect(s) of the objects of the parish. Or they may be capital funds, where the assets are required to be invested, or retained for actual use, rather than expended.

Designated funds

Funds which have, for administrative purposes, been earmarked by the parish for particular purposes. The parish may at its discretion set aside funds for specific purposes, which would otherwise form part of unrestricted funds of the parish.

Unrestricted funds

Funds which are expendable at the discretion of the Parish Priest in furtherance of the objects of the parish.
